Note A - Organization and Nature of Activities

Access Now, Inc. ("Access Now") is a global movement that believes political participation and the realization of human rights in the 21st century is increasingly dependent on access to the internet and other forms of new technology. Founded in the wake of the 2009 Iranian post-election crackdown, Access Now teams with digital activists and civil society groups internationally to build their technical capacity and to help them advocate globally for their digital rights. We provide technical support, thought leadership and practical policy recommendations in the field of internet freedom, and mobilizes its global movement of citizens to campaign for an open internet accessible to all.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

Access Now prepares its financial statements using the accrual basis of accounting. Access Now follows accounting principles generally accepted in the United States of America ("US GAAP") which include certain specialized requirements set forth in publications of the Financial Accounting Standards Board.

Cash and Cash Equivalents

Access Now considers all highly liquid investments with a maturity of less than three months to be cash equivalents.

Restricted Contributions

Contributions are recognized when the donor makes a promise to give to Access Now that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation. Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their estimated useful lives.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statement through the date that the financial statements were available to be issued, which date is October 19, 2011.

Accounting for Uncertainty in Income Taxes

Access Now's accounting policy is to record liabilities for uncertain tax positions when a liability is probable and estimable. Management is not aware of any violation of its tax status as an organization exempt from income taxes, nor of any exposure to unrelated business income tax.
