

The RDR Big Tech Scorecard results have provided us with a lot of insight on how to advance our own human rights policies. We greatly appreciate AccessNow's role as the surveillant of global digital rights issues. Kakao is on its way to establishing an internal process to gradually better our human rights standards following a medium and long-term plan. We have recently formed a "Tech for Good Committee" with each of the CTOs of our subsidiaries as members, along with a "Human Rights and Tech Ethics Team". With these teams playing a leading role, we will continue to evaluate and evolve our digital rights policies, including the issues suggested by RDR.
