

# *Digital Rights & Trade*

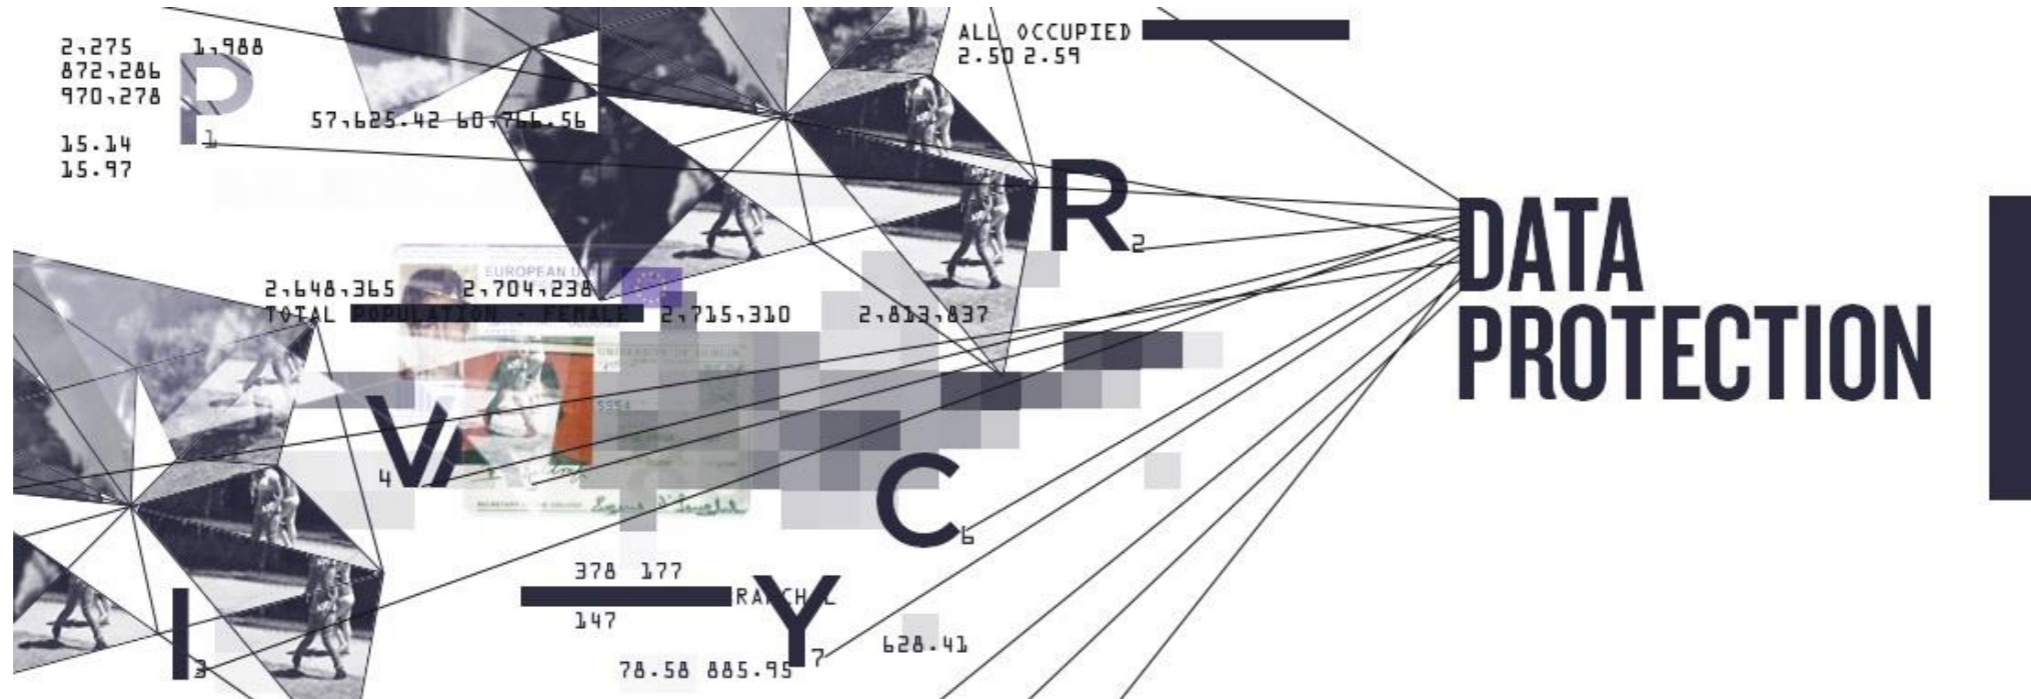

1. Negotiation process
2. Data Protection
3. Net neutrality
4. Digital security

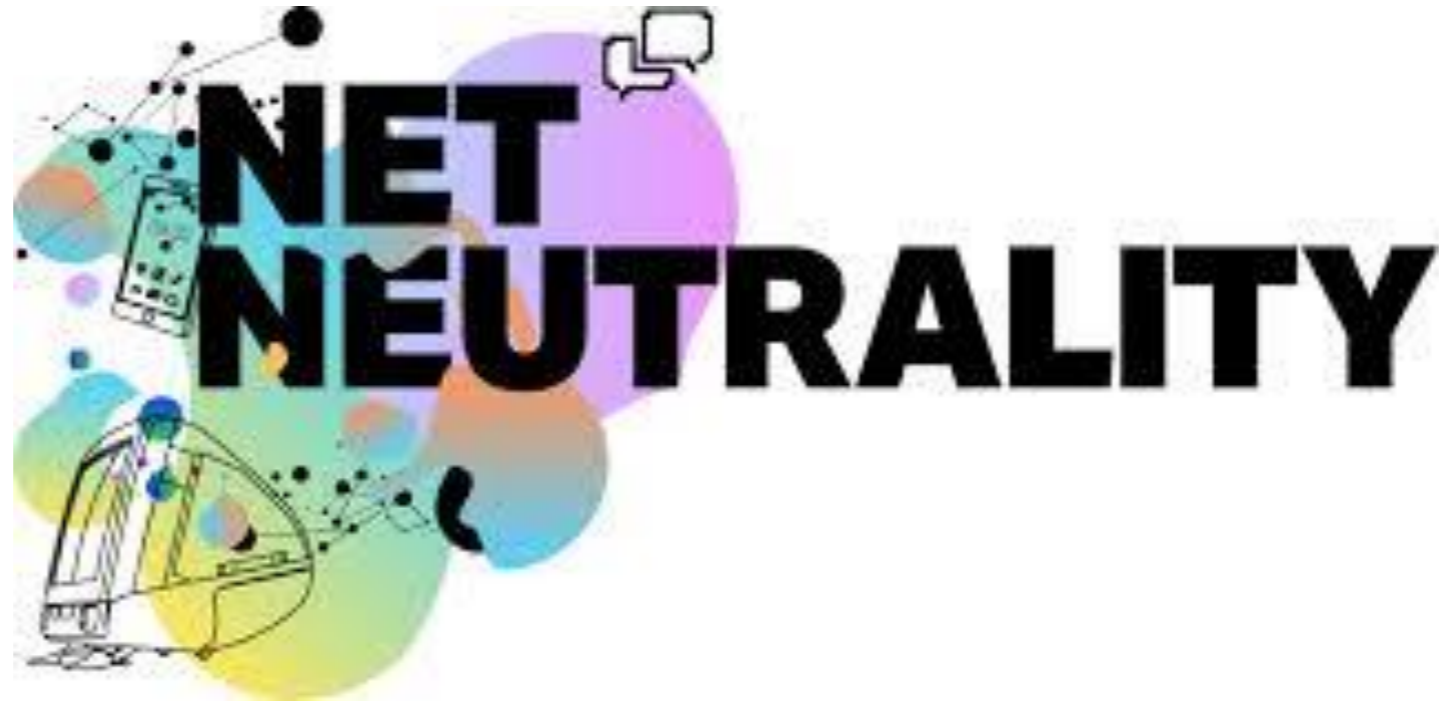

*EDRI's redlines on TTIP (January 2015)*  
[https://edri.org/files/TTIP\\_redlines\\_20150112.pdf](https://edri.org/files/TTIP_redlines_20150112.pdf)

# Negotiation process

- Transparency in the negotiation process  
→ further efforts needed
- TiSA leak
- US surveillance programmes

- Excluded from TTIP mandate
- Trade agreements not forum to negotiate Human Rights standards
- TiSA leak: Provisions undermining data protection and privacy

*The principle that ensures that the internet remains a platform for the enjoyment of human rights such as freedom of expression and privacy*

- Legislative debate happening both in the EU and in the US
- TiSA leak: Provisions undermining EU efforts and contradicts President Obama's statement

## DIGITAL SECURITY

- TiSA leak: Provisions undermining EU efforts to develop protection against mass surveillance
- National security rules: Risk of chilling effect on rights to privacy and data protection
